

DAMA DMBOK2 Content

CHAPTER 1 Data Management

1. Introduction
2. Essential Concepts
3. 2.1 Data
4. 2.2 Data and Information
5. 2.3 Data as an Organizational Asset
6. 2.4 Data Management Principles
7. 2.5 Data Management Challenges
- 2.6 Data Management Strategy
8. Data Management Frameworks
9. 3.1 Strategic Alignment Model
- 10.3.2 The Amsterdam Information Model
- 11.3.3 The DAMA-DMBOK Framework
- 12.3.4 DMBOK Pyramid (Aiken)
- 3.5 DAMA Data Management Framework Evolved
13. DAMA and the DMBOK
14. Works Cited / Recommended

CHAPTER 2 Data Handling Ethics

1. Introduction
2. Business Drivers
3. Essential Concepts
4. 3.1 Ethical Principles for Data
5. 3.2 Principles Behind Data Privacy Law
6. 3.3 Online Data in an Ethical Context
7. 3.4 Risks of Unethical Data Handling Practices
8. 3.5 Establishing an Ethical Data Culture
- 3.6 Data Ethics and Governance
9. Works Cited / Recommended

CHAPTER 3 Data Governance

1. Introduction
2. 1.1 Business Drivers
3. 1.2 Goals and Principles
- 1.3 Essential Concepts
4. Activities
5. 2.1 Define Data Governance for the Organization
6. 2.2 Perform Readiness Assessment

- 7. 2.3 Perform Discovery and Business Alignment
- 8. 2.4 Develop Organizational Touch Points
- 9. 2.5 Develop Data Governance Strategy
- 10.2.6 Define the DG Operating Framework
- 11.2.7 Develop Goals, Principles, and Policies
- 12.2.8 Underwrite Data Management Projects
- 13.2.9 Engage Change Management
- 14.2.10 Engage in Issue Management
- 15.2.11 Assess Regulatory Compliance Requirements
- 16.2.12 Implement Data Governance
- 17.2.13 Sponsor Data Standards and Procedures
- 18.2.14 Develop a Business Glossary
- 19.2.15 Coordinate with Architecture Groups
- 20.2.16 Sponsor Data Asset Valuation
- 2.17 Embed Data Governance

21.Tools and Techniques

22.Implementation Guidelines

23.Metrics

24.Works Cited / Recommended

CHAPTER 4 Data Architecture

1. Introduction

2. 1.1 Business Drivers

3. 1.2 Data Architecture Outcomes and Practices
1.3 Essential Concepts

4. Activities

5. 2.1 Establish Data Architecture Practice
2.2 Integrate with Enterprise Architecture

6. Tools

7. Techniques

8. Implementation Guidelines

9. Data Architecture Governance

10.Works Cited / Recommended

CHAPTER 5 Data Modelling and Design

1. Introduction

2. 1.1 Business Drivers

3. 1.2 Goals and Principles
1.3 Essential Concepts

4. Activities

- 5. 2.1 Plan for Data Modelling
- 6. 2.2 Build the Data Model
- 7. 2.3 Review the Data Models
 - 2.4 Maintain the Data Models
- 8. Tools
- 9. Best Practices
- 10. Data Model Governance
- 11.5.1 Data Model and Design Quality Management
 - 5.2 Data Modelling Metrics
- 12. Works Cited / Recommended

CHAPTER 6 Data Storage and Operations

- 1. Introduction
- 2. 1.1 Business Drivers
- 3. 1.2 Goals and Principles
 - 1.3 Essential Concepts
- 4. Activities
- 5. 2.1 Manage Database Technology
 - 2.2 Manage Databases
- 6. Tools
- 7. Techniques
- 8. Implementation Guidelines
- 9. Data Storage and Operations Governance
- 10. Works Cited / Recommended

CHAPTER 7 Data Security

- 1. Introduction
- 2. 1.1 Business Drivers
- 3. 1.2 Goals and Principles
 - 1.3 Essential Concepts
- 4. Activities
- 5. 2.1 Identify Data Security Requirements
- 6. 2.2 Define Data Security Policy
 - 2.3 Define Data Security Standards
- 7. Tools
- 8. Techniques
- 9. 4.1 CRUD Matrix Usage
- 10.4.2 Immediate Security Patch Deployment

- 11.4.3 Data Security Attributes in Metadata
- 12.4.4 Metrics
- 13.4.5 Security Needs in Project Requirements
- 14.4.6 Efficient Search of Encrypted Data
- 4.7 Document Sanitization

15. Implementation Guidelines

- 16.5.1 Readiness Assessment / Risk Assessment
- 17.5.2 Organization and Cultural Change
- 18.5.3 Visibility into User Data Entitlement
- 19.5.4 Data Security in an Outsourced World
- 5.5 Data Security in Cloud Environments

20. Data Security Governance

21. Works Cited / Recommended

CHAPTER 8 Data Integration and Interoperability

1. Introduction

- 2. 1.1 Business Drivers
- 3. 1.2 Goals and Principles
- 1.3 Essential Concepts

4. Data Integration Activities

- 5. 2.1 Plan and Analyse
- 6. 2.2 Design Data Integration Solutions
- 7. 2.3 Develop Data Integration Solutions
- 2.4 Implement and Monitor

8. Tools

9. Techniques

10. Implementation Guidelines

11. DII Governance

12. Works Cited / Recommended

CHAPTER 9 Document and Content Management

1. Introduction

- 2. 1.1 Business Drivers
- 3. 1.2 Goals and Principles
- 1.3 Essential Concepts

4. Activities

- 5. 2.1 Plan for Lifecycle Management
- 6. 2.2 Manage the Lifecycle
- 2.3 Publish and Deliver Content

7. Tools

8. 3.1 Enterprise Content Management Systems

9. 3.2 Collaboration Tools

10.3.3 Controlled Vocabulary and Metadata Tools

11.3.4 Standard Mark-up and Exchange Formats

3.5 E-discovery Technology

12. Techniques

13. Implementation Guidelines

14.5.1 Readiness Assessment / Risk Assessment

5.2 Organization and Cultural Change

15. Documents and Content Governance

16.6.1 Information Governance Frameworks

17.6.2 Proliferation of Information

18.6.3 Govern for Quality Content

6.4 Metrics

19. Works Cited / Recommended

CHAPTER 10 Reference and Master Data

1. Introduction

2. 1.1 Business Drivers

3. 1.2 Goals and Principles

1.3 Essential Concepts

4. Activities

5. 2.1 MDM Activities

2.2 Reference Data Activities

6. Tools and Techniques

7. Implementation Guidelines

8. Organization and Cultural Change

9. Reference and Master Data Governance

10. Works Cited / Recommended

CHAPTER 11 Data Warehousing and Business Intelligence

1. Introduction

2. 1.1 Business Drivers

3. 1.2 Goals and Principles

1.3 Essential Concepts

4. Activities

5. 2.1 Understand Requirements

- 6. 2.2 Define and Maintain the DW/BI Architecture
- 7. 2.3 Develop the Data Warehouse and Data Marts
- 8. 2.4 Populate the Data Warehouse
- 9. 2.5 Implement the Business Intelligence Portfolio
- 2.6 Maintain Data Products

10.Tools

- 11.3.1 Metadata Repository
- 12.3.2 Data Integration Tools
- 3.3 Business Intelligence Tools Types

13.Techniques

14.Implementation Guidelines

15.DW/BI Governance

- 16.6.1 Enabling Business Acceptance
- 17.6.2 Customer / User Satisfaction
- 18.6.3 Service Level Agreements
- 19.6.4 Reporting Strategy
- 6.5 Metrics

20.Works Cited / Recommended

CHAPTER 12 Metadata Management

- 1. Introduction
- 2. 1.1 Business Drivers
- 3. 1.2 Goals and Principles
- 1.3 Essential Concepts
- 4. Activities
- 5. 2.1 Define Metadata Strategy
- 6. 2.2 Understand Metadata Requirements
- 7. 2.3 Define Metadata Architecture
- 8. 2.4 Create and Maintain Metadata
- 2.5 Query, Report, and Analyse Metadata
- 9. Tools
- 10.Techniques
- 11.Implementation Guidelines
- 12.Metadata Governance
- 13.Works Cited / Recommended

CHAPTER 13 Data Quality

- 1. Introduction
- 2. 1.1 Business Drivers

- 3. 1.2 Goals and Principles
- 1.3 Essential Concepts

4. Activities

- 5. 2.1 Define High Quality Data
- 6. 2.2 Define a Data Quality Strategy
- 7. 2.3 Identify Critical Data and Business Rules
- 8. 2.4 Perform an Initial Data Quality Assessment
- 9. 2.5 Identify and Prioritize Potential Improvements
- 10.2.6 Define Goals for Data Quality Improvement
- 2.7 Develop and Deploy Data Quality Operations

11.Tools

12.Techniques

- 13.4.1 Preventive Actions
- 14.4.2 Corrective Actions
- 15.4.3 Quality Check and Audit Code Modules
- 16.4.4 Effective Data Quality Metrics
- 17.4.5 Statistical Process Control
- 4.6 Root Cause Analysis

18.Implementation Guidelines

19.Data Quality and Data Governance

20.Works Cited / Recommended

CHAPTER 14 Big Data and Data Science

1. Introduction

- 2. 1.1 Business Drivers
- 3. 1.2 Principles
- 1.3 Essential Concepts

4. Activities

- 5. 2.1 Define Big Data Strategy and Business Needs
- 6. 2.2 Choose Data Sources
- 7. 2.3 Acquire and Ingest Data Sources
- 8. 2.4 Develop Data Hypotheses and Methods
- 9. 2.5 Integrate / Align Data for Analysis
- 10.2.6 Explore Data Using Models
- 2.7 Deploy and Monitor

11.Tools

- 12.3.1 MPP Shared-nothing Technologies and Architecture
- 13.3.2 Distributed File-based Databases
- 14.3.3 In-database Algorithms
- 15.3.4 Big Data Cloud Solutions
- 16.3.5 Statistical Computing and Graphical Languages
- 3.6 Data Visualization Tools

17. Techniques

18. Implementation Guidelines

19. Big Data and Data Science Governance

20.6.1 Visualization Channels Management

21.6.2 Data Science and Visualization Standards

22.6.3 Data Security

23.6.4 Metadata

24.6.5 Data Quality

6.6 Metrics

25. Works Cited / Recommended

CHAPTER 15 Data Management Maturity Assessment

1. Introduction

2. 1.1 Business Drivers

3. 1.2 Goals and Principles

1.3 Essential Concepts

4. Activities

5. 2.1 Plan Assessment Activities

6. 2.2 Perform Maturity Assessment

7. 2.3 Interpret Results

8. 2.4 Create a Targeted Program for Improvements

2.5 Re-assess Maturity

9. Tools

10. Techniques

11. Guidelines for a DMMA

12. Maturity Management Governance

13. Works Cited / Recommended

CHAPTER 16 Data Management Organization and Role Expectations

1. Introduction

2. Understand Existing Organization and Cultural Norms

3. Data Management Organizational Constructs

4. 3.1 Decentralized Operating Model

5. 3.2 Network Operating Model

6. 3.3 Centralized Operating Model

7. 3.4 Hybrid Operating Model

8. 3.5 Federated Operating Model

9. 3.6 Identifying the Best Model for an Organization

3.7 DMO Alternatives and Design Considerations

10.Critical Success Factors

11.Build the Data Management Organization

12.Interactions Between the DMO and Other Data-oriented Bodies

13.6.1 The Chief Data Officer

14.6.2 Data Governance

15.6.3 Data Quality

16.6.4 Enterprise Architecture

6.5 Managing a Global Organization

17.Data Management Roles

18.Works Cited / Recommended

CHAPTER 17 Data Management and Organizational Change Management

1. Introduction

2. Laws of Change

3. Not Managing a Change: Managing a Transition

4. Kotter's Eight Errors of Change Management

5. 4.1 Error #1: Allowing Too Much Complacency

6. 4.2 Error #2: Failing to Create a Sufficiently Powerful Guiding Coalition

7. 4.3 Error #3: Underestimating the Power of Vision

8. 4.4 Error #4: Under Communicating the Vision by a Factor of 10, 100, or 1000

9. 4.5 Error #5: Permitting Obstacles to Block the Vision

10.4.6 Error #6: Failing to Create Short-Term Wins

11.4.7 Error #7: Declaring Victory Too Soon

4.8 Error # 8: Neglecting to Anchor Changes Firmly in the Corporate Culture

12.Kotter's Eight Stage Process for Major Change

13.5.1 Establishing a Sense of Urgency

14.5.2 The Guiding Coalition

15.5.3 Developing a Vision and Strategy

5.4 Communicating the Change Vision

16.The Formula for Change

17.Diffusion of Innovations and Sustaining Change

18.Sustaining Change

19.Communicating Data Management Value

20.Works Cited / Recommended
